Here at Custom Coach Creations we understand that a custom built coach is a big financial decision and for that reason you should take time to research who is building the coach of your dreams! When we first started building coaches under the Florida RV Sales and Service name in 2004 we were one of only hand full of coach builders in the Country, now they are popping up on every block it seems! The one thing I know for sure is that building high quality coaches is not something that you can wake up one day and have the skills to do overnight.

I spent over 10 years restoring pre-made Coaches of all shapes and sizes before I built the first custom made Class B Camper. It is hard to compete with experience that has developed over many years of creating beautiful high quality coaches. Custom Coach Creations strives to be the best in the industry, every coach starts with high quality materials, including real 1/2 in. birch plywood for your walls and floors and 3/4 in. birch for your cabinetry. This combination will give you a super strong and rattle free interior that will last the lifetime of the van! We are truly custom; every inch of your build is designed and built piece by piece here in our

shop to meet your needs by some of the most experienced technicians in the country!With our years of experience, we have developed some of the most forward thinking high quality power systems in the industry. All of our appliances are hand picked for their quality and durability!Please take the time to look over our awesome gallery and decide for yourself, if we should be the Coach builder to make your dreams come true!
